

# PRODUCT DATA SHEET

# Op-T-Hib CI-2802 Corrosion Inhibitor

# **Description**

**CI 2802** is a water soluble formulation suitable for use in workovers and well stimulation operations. It is effective in the presence of both H<sub>2</sub>S and CO<sub>2</sub> gases and also protects against corrosion due to trace levels of dissolved oxygen and microbial activity when using fresh or aerated sources of water.

#### **Features and Benefits**

- Water soluble
- Winterized formula
- Low foaming tendency

# **Properties**

Form: Liquid Water Solubility: Soluble Color: Clear brown Alcohol Solubility: Soluble

Flash Point: 11°C (52°F) Brine Solubility: Soluble/Highly Dispersible

Specific Gravity: 0.976 pH: 8.6

## **Application**

**CI 2802** should be mixed with water at dosages of 0.5% to 0.75% for most uses. In cases where higher levels of oxygen or microbial agents are known to exist, up to 1.0% is recommended.

#### Distribution

CI 2802 is available in 20 litre pails, 208 litre drums and 1000 litre totes.

### Shipping and Handling

Before handling, storage or use, see the Material Safety Data Sheet (MSDS) for details. Flammable and corrosive in concentrated form.
